Dear Hiring Manager,

I am writing to express my strong interest in the internship opportunity at Art. Lebedev Studio. As a student of animation at University of the Arts London, I am confident that my background and experience align perfectly with the diverse range of services that your studio offers.

Throughout my education, I have not only acquired technical skills in animation, but also had the chance to explore other creative fields, such as interactive projection and exhibition design. I believe that this breadth of knowledge has allowed me to approach design challenges with a more holistic perspective.

In addition to my academic achievements, I have completed two internships that have provided me with valuable practical experience. At Do Union, I participated in a variety of projects, including exhibition design, photography, video editing, and motion design. Meanwhile, at Wix Playground, I was responsible for the graphic design, website development, and logo design of a website for the Voice for Autism. These experiences have strengthened my skills in web design, graphic design, and digital illustration, and have prepared me to tackle more complex design projects.

Art. Lebedev Studio is known for its creativity, innovative ideas, and problem-solving skills. I am excited to join a company that combines research and analytics with wild ideas, and seeks to find the most effective, simple, and beautiful solutions to each problem. Moreover, I share your principles of working with clients whose beliefs align with the values of the studio.

I am confident that my education, internships, and passion for design make me a strong candidate for this internship position. Thank you for considering my application.

Sincerely,
Yi Song
